

## Computing and e-safety

We are astronauts:

In this unit, pupils program a sprite (such as a spaceship) to move around the screen.

## Science

Living things and their habitats

The children will be learning about different living things within different habitats. They will also be introduced to different habitats and why certain things live there. Food chains are also covered within this topic.

## Cornerstones

Magnificent Monarchs

This project teaches children about British Monarchs, past and present. They will be looking at timelines and what happened in England during certain reigns. The children will look at lots of facts about certain Monarchs such as Henry VIII, Elizabeth I and Alfred the Great.

## How can you help at home?

Read with your child **every day**. The more words that children read/hear, the better they will perform in all areas of the curriculum. You can support them by asking questions like "What do you think will happen next? Why do you think the character said that? What does that word mean?" Encourage them to use an online dictionary to look up words they have never seen before.

Check your internet security settings. Did you know you can set the internet to only be accessible at specific times from certain devices? We are more than happy to help with this - please contact the school office for support.

Play online maths games such as TTRS or Hit the Button to improve maths fluency and recall.

Help your child to be independent by encouraging them to pack their school bag the night before school - ensuring they have their reading record book, school reader and any other equipment they might need.

## English

This term, we will be beginning to look at a Traditional Tales. This is a fictional unit whereby children will be focusing on the features of a story and how to make our writing more interesting.

Focus:

- Capital letters and full stops.
- Including a range of adjectives
- Including punctuation marks
- Handwriting

# Autumn Term Year 2
