

Computing and e-safety

We are photographers:

In this unit, pupils take, review and edit digital photos.

Science

Experiments

The children will be conducting lots of different experiments within the classroom. The children will predict what they think will happen before each one and find out if their prediction was right by the end of the lesson by conducting the experiment.

Cornerstones

Movers and shakers

This project teaches children about historically significant people who have had a major impact on the world. They will learn to use timelines, stories and historical sources to find out about the people featured and use historical models to explore their significance.

How can you help at home?

Read with your child **every day**. The more words that children read/hear, the better they will perform in all areas of the curriculum. You can support them by asking questions like "What do you think will happen next? Why do you think the character said that? What does that word mean?" Encourage them to use an online dictionary to look up words they have never seen before.

Check your internet security settings. Did you know you can set the internet to only be accessible at specific times from certain devices? We are more than happy to help with this - please contact the school office for support.

Play online maths games such as TTRS or Hit the Button to improve maths fluency and recall.

Help your child to be independent by encouraging them to pack their school bag the night before school - ensuring they have their reading record book, school reader and any other equipment they might need.

English

This term, we will be beginning to look at poetry. Throughout this unit the children will be focusing on free verse and shape poems, looking at the features of them and creating them.

Focus:

- Capital letters and full stops.
- Including a range of adjectives
- Including punctuation marks
- Handwriting

Autumn Term Year 2

PE

Year 2 Sports

Orienteering and Dance

Chilwell Croft Academy

All Different, All Equal, All Achieving

Mathematics

Addition and Subtraction

- Add and subtract numbers up to 100.
- Number bonds to 10 and 100.
