

Computing

We are Artists

This term, the children will be exploring their Artistic capabilities using the Inkscape & scratch app. They will model their art inspired by Bridget Riley's early and late works.

English

Reading

We will be reading The Wolf's Story and various non-fiction texts this term.

Writing

We will be inspired by our reading books this term to create a narrative around The Wolf's Story. The students will also create a newspaper article.

Art and Design Technology

Structures

Students will investigate, evaluate and design shell structures.

Collage

Students will explore historical artwork, analyse and compose their own collage work.

RE

Being Merciful and Forgiving

- Can all mistakes be forgiven?
- What Jewish people and Christians think about forgiveness?
- What do Christians believe about forgiveness as a result of Jesus dying on the cross?

Responding to Suffering

- Can we recognise when others are hurt or in pain?
- How do Muslims respond to the suffering of others?
- What do Christians learn about the reactions of witnesses to Jesus' crucifixion?

Science

Animals including humans:

Children will be able to group animals based on species. They will understand what a classification is, be able to identify animals by name and explain where they live.

MFL

Learning Spanish!

I know how

Children will be able to recall from memory a selection of common classroom objects. Additionally, describe what they do and do not have in their pencil case.

PE

Summer 1:

- Tennis
- Badminton

Summer 2

- Athletics (sports day preparation)
- Tag rugby
- Cricket on a Wednesday

History & Geography

The Saxons & Vikings:

For Summer 1, the focus will remain on how Anglo Saxons came to Britain and the changes that this brought. In Summer 2 the focus will be on how the Vikings interacted with the Saxons in Britain and what the changes that happened between 600AD and 1066AD.

Changes in environment- globally & locally

Children will develop their knowledge of different localities and understand that different locations can experience different qualities of life based on their environments.

Summer Term

Year 4

Chilwell Croft Academy

All Different, All Equal, All Achieving

Life Education

In Life Education the students will learn about who helps them safe and healthy outside of school. How they can help to make a difference in their communities and the purpose of paying taxes within the UK.

Music

Singing Assemblies will take place once a week, every Thursday afternoon.

How can you help at home?

Read with your child **every day**. The more words that children read/hear, the better they will perform in all areas of the curriculum. You can support them by asking questions like "What do you think will happen next? Why do you think the character said that? What does that word mean?" Encourage them to use an online dictionary to look up words they don't know or can't define.

Check your internet security settings. Did you know you can set the internet to only be accessible at specific times from certain devices? We are more than happy to help with this – please contact the school office for support.

Play online maths games such as TTRS or Hit the Button to improve maths fluency and recall. Your child will complete a multiplication check in June, so practice times tables as often as you can.

Help your child to be independent by encouraging them to check they have their reading planners, reading book and any other equipment they might need for the following day.

Mathematics

Fractions and decimals

The children will be learning how to calculate simple and mixed fractions, as well as solving problems involving both fractions and decimals.

There will be lots of multiplication practice taking place to prepare the children for the multiplication test in June.

Seesaw
